

Image text „Children and families“

– short version –

A multi-generational home

Child-, elderly- and family-friendly – Pirna totally embodies harmonious living together and support for all. We believe that success stories start with good and stable relationships between people and we therefore orientate the tools of our town development accordingly. Here you will find everything that makes families strong and the coexistence of young and old easier: modern childcare facilities, schools, senior citizen and health facilities, a vibrant choice of cultural and recreational possibilities and a dynamic business and commercial landscape. Living and working together. Pirna is a truly multi-generational home.
